

Z2Data Integration brings Z2Data data to your parts. It enriches parts with valuable information including live lifecycle, lifecycle forecast, and compliance data in Altium 365 and Altium Designer to help you make better-informed decisions.

Z2Data is available in

- Altium 365: Components, BOM Portal, Project > BOM
- Altium Designer: Manufacturer Part Search Panel, Components Panel, ActiveBOM

Getting Started

ONBOARDING OBJECTIVES	RESOURCE
Activate your Altium 365 Workspace	Documentation Article
Activate the Z2Data Integration App	Documentation Article
Check your part quota	Documentation Article
Configure checks	Documentation Article

Best Practices

- Every unique MPN for which you request Z2Data data counts as one query.
- Once queried, you have access to live data for that MPN until the expiration date.
